# Essbase CS Essbase Cloud Service on Oracle Analytics Cloud (OAC)

Essbase CS is the market leading online analytical processing (OLAP) server for enterprise performance management (EPM) applications. Designed specifically for business users, Oracle Essbase CS supports forecasting, variance analysis, root cause identification, scenario planning and what-if modelling for both custom and packaged applications.

### The Cloud

The Cloud is accelerating the adoption of Enterprise Performance Management (EPM) applications - over 50% of the organisations that have EPM applications in the Cloud today did not have these applications previously On-Premise.

### Services

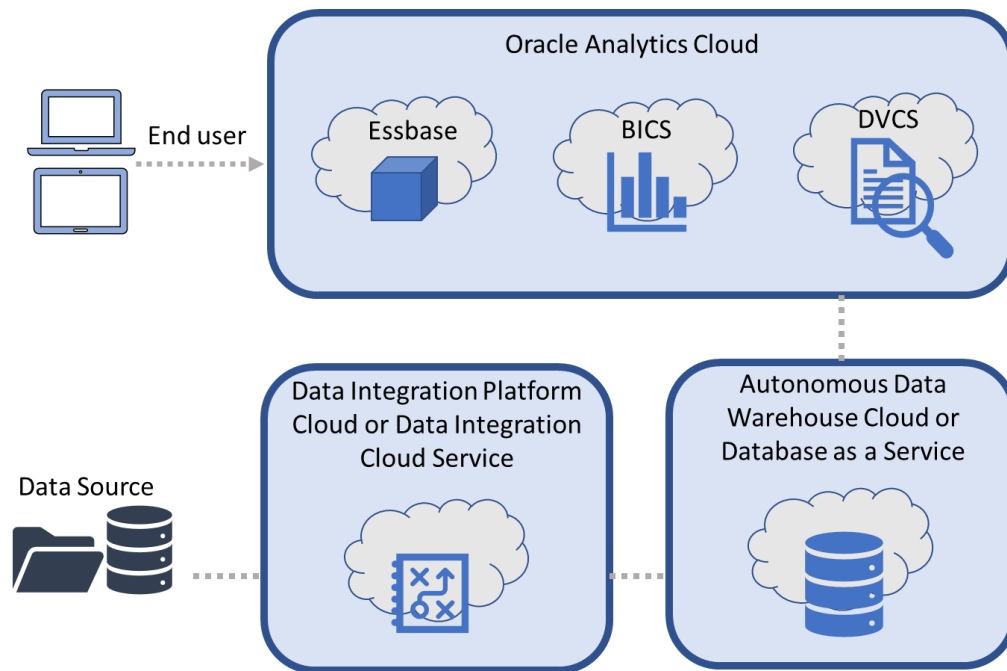

We have a range of Fixed Scope Offerings (FSOs) to Expedite Return on Investment and Accelerate Delivery Times and Deliver Value, **rapidly**.

### Options

We can **quickly** provide;

1. New Implementations
2. Migrations & Optimisation (from your existing on premise Essbase)
